

April Showers

Age: 2 years and up

What's needed

Blue paper
Scissors
Colored chalk
Spray bottle (empty pump-type)

What to do

1. Use large blue sheets of paper that children can cut into raindrop shapes.
2. Children can then use a spray bottle such as an empty, clean pump-type window cleaner bottle to spray water onto the decorated raindrops. The chalk will run together to give a wet-day look to the art.

What children will learn

Weather awareness, small motor skills
