

# Breezin' Rings

**Age: 3 years and up**

## What's needed

Fabric or paper strips  
Six-pack rings from canned beverage (or plastic coffee can lid with center cut out)  
String and/or yarn  
Feathers  
Buttons  
Other odds and ends  
Scissors

## What to do

1. Tie streamers of yarn, fabric or paper through the rings.
2. Hang the rings from a tree, fence or swing set with the string.
3. Watch rings blow in the wind.
4. Add other items you would enjoy seeing blow in the wind.
5. Be sure to bring rings indoors when done so that animals will not pick them up.

Variations: Find a stick and attach fabric and paper to top of stick to make a wand to blow in the wind. Make a huge wind sculpture with noisy items to hang and blow in the wind, such as blocks of wood, plastic pipes, cans, and plastic bottles.

## What children will learn

Science, nature, characteristics of the wind
