

Drop and Fetch

Age: 6-12 months

What's needed

Several pieces of 6-inch string

1. Several toys or objects of different weight (such as a sponge, a ball, a wooden block, etc.)

What to do

Securely attach the toys to the string and the string to the high chair tray. Babies will have fun tossing the toys off the edge. You will need to show them how to reel them back up again. It won't be long until they can drop and fetch them all by themselves.

CAUTION

Do not leave children unattended with toys and string.

What children will learn

Small motor, thinking, problem solving
