

Snow Fun

Age: all ages

What's needed

A snowy day

What to do

1. Snow angels are easy. Have children lie in the snow on their backs and swish legs and arms back and forth to make an angel shape in the snow.
2. Snow men are favorites that all children can make, with young children rolling the balls and creating faces, and adults helping to stack into shapes.

What children will learn

Geometry, body and face awareness, spatial awareness
