

Sponge Play

Age: 1 year and up

What's needed

Sponges
Container of water

What to do

1. Play with sponges in a container holding water. See how much water different sized sponges can absorb, then squeeze the water into another container.
2. Compare the amount of water squeezed out.

CAUTION

To prevent drowning accidents, young children must be supervised around water at all times. An adult needs to be no more than an arm's length away.

What children will learn

Comparison skills, science skills
