

Story Cards

Age: 6-10 years

What's needed

Tagboard sheets, about 12 by 14 inches
Hand-drawn pictures or pictures cut from books or magazines to illustrate the story
Felt-tip markers
Glue
Clear contact paper or laminate
Scissors

What to do

1. Mount each picture on a piece of tagboard.
2. Print part of the story on the back of each picture.
3. Number the tagboard cards consecutively.
4. Cover the cards with clear contact paper or laminate.
5. Place the numbered cards in order.
6. Read the children the part of the story printed on the back of each card while showing them the picture. After the children are familiar with the story, ask the children to sequence the pictures. Encourage them to retell the story or make up one of their own to fit the pictures. Remove a card and ask children which part of the story is missing.

What children will learn

Listening skills, verbal skills, sequencing – thinking about what comes next
