

Water Play

Age: 1 year and up

What's needed

Buckets of water
Small containers (measuring cups, etc.)

What to do

Fill buckets or containers with water and children can use measuring cups and other smaller containers to experiment and play with the water. This activity is a nice outdoor cool-down for hot days.

CAUTION

To prevent drowning accidents, young children must be supervised around water at all times. An adult needs to be no more than an arm's length away.

What children will learn

Experimentation and discovery; science and nature
