

What Would It Be Like?

Age: 4-5 years

What's needed

Pictures of animals

What to do

1. Show children pictures of animals in their natural habitat, such as fish in a lake.
2. Ask children what it would be like to be a fish. Ask additional probing questions, such as, "What would it feel like being a fish? Would it be warm or cold living in water? What would you eat? How would you move about? Show me. Would you want to be a big fish or a little fish? Why?"

What children will learn

Language development, perspective of others, animals and nature
