

What Do You See?

Age: 1 year and up

What's needed

Full length mirror

What to do

1. Put a full length mirror where children can look at themselves.
2. Children can compare themselves to each other, listing things that are the same and things that are different about people.
3. Help them to see that, although people are alike in many ways, all people are different too.

What children will learn

Comparison skills, self-concept
